## FROM NEW YORK CITY TO TROY

TAFT'S PROGRESS ALONG THE HUDSON RIVER IS MARKED BY MANY SPEECHES.

## LABOR ISSUE PREDOMINATED.

Great Crowds Were Present at Each Stop—Much Enthusiasm Was Manifested by His Hearers.

Troy, N. Y., Oct. 28.—The industries of the cities and towns which line the banks of the picturesque Hudson from Greater New York to Troy were made the text for the speeches of William H. Taft on Tuesday to the people of the cities and towns.

Yonkers smiled on the big form of the Ohioan through a heavy shower. He talked at length to as many as could get into the largest theatre, and then addressed those who had stood waiting in the rain, whose number was even greater.

Tarrytown, Peekskill and Fishkill Landing listened in the rain to short speeches delivered by the candidate from the rear of his car. The dampness did not seem to dull the ardor of the citizens. When the Taft special reached Poughkeepsie the rain had just ceased and the sun came out brightly. He was driven uptown to the Collingwood opera house, which was crowded to the doors. Judge Taft got inside with much difficulty, after which the doors were closed on most of the members of his party.

Another brief speech was made at Hudson, after which the special ran to Schenectady, where nearly three hours were occupied by the candidate in the delivery of three speeches, all of them predominant with the labor issue. A faulty engine delayed the Taft special so that it was nearly 10 o'clock before it reached Cohoes, where a monster meeting was addressed. The interests of labor were talked of at each place and enthusiasm was at high pitch.

Troy was reached at 10:30 o'clock. Immense Bolton hall was packed and jammed with thousands who had been in their places for three hours.

Of the persons who he declares had a part in the killing of Rankin, more than half are now in custody.

## Eyes and Their Relation to Health

If you had been told a few years ago that eye strain was the cause of not only eye trouble, but Epilepsy, St. Vitus' Dance, Vertigo, Nausea, so-called Valvular Heart Disease, Spinal Curvature, Headache, Hysteria, apparently stupid children, incorrigible children and adults, Insomnia, Impaired Memory, Stomach, Liver and Kidney Troubles, all obscure Nervous Affections, as well as troubles peculiar to women, you would have thought it ridiculous. If you had been told that relief and permanent cure could be affected by properly fitted glasses, together with instructions as to diet, habits, etc., and without the use of drugs you would have declared it impossible. Many people do not believe it yet, but that of course does not alter the fact that such is actually the case. Facts are stubborn things and are in no wise affected by our attitude toward them. It is always wise to investigate before condemning, and I can prove every assertion made.
